

## ARISE 2025: Mentor Application

---

---

# ARISE

A successful mentoring relationship provides benefits for both Mentor and Mentee. Mentees are provided with a more experienced and knowledgeable person with insight into the industry and leadership to provide feedback and advice on their continued career and professional development. Their mentor provides a sounding board to brainstorm ideas, communicate concerns and receive support.

**If you would like to become a Mentor in the ARISE program and support early-career professionals who are eager to develop their skills and explore diverse career opportunities within the industry, please complete this form.**

Any questions please [contact us](#).
